## MEMORANDUM FOR THE RECORD

SUBJECT: Summary of HPSCI Briefing on New Personnel Initiatives

1.	On 10	September	r 1986, Bo	b Magee,				
	and	the under	rsigned me	et with H	PSCI stat	ffers Tom 1	Latimer, M	űke –
O'Neil,	Steve	Berry, D	uane Andre	ews and D	ave Addi	ngton to di	iscuss new	, personne
initiat	ives u	nder cons	ideration	by the A	gency in	volving the	e replacem	ent of th
GS pay	system	and the	new secre	tarial pa	y system	. While H	PSCI expre	essed
initial	skept	icism reg	arding the	e new ini	tiatives	, I believ	e there wa	s some
softeni	ng of	their con-	cern by the	he end of	the bri	efing.		

- 2. The primary concern of the HPSCI staff was that their members be able to justify a new personnel system to other congressmen who would argue that the Agency was paying its employees more than other federal employees who perform similar work. The staff also stated that the Agency needed to provide more timely notification of implementation of any change in its personnel system. The staff urged the Agency to proceed cautiously in creating new pay systems for other occupational categories and to have persuasive justification for further departures from the GS system. The legal authority of the Agency to create new pay systems was not raised by the HPSCI staff. The HPSCI staff advised the Agency that it would be easier to justify a new personnel system to other committees if the Agency were to retain some features of the GS schedule as a fig leaf.
- 3. In response to the HPSCI concerns, Mr. Magee promised to provide early notification of any additional departures from the GS system and to justify those changes to the Committee. Mr. Magee also provided an overall justification for changing the system by noting that the pay for performance feature of the new plan would create an incentive for improved performance and allow people to advance without forcing them into management positions.
- 4. With respect to the new secretarial pay system, HPSCI staff expressed a willingness to compromise on their initial insistence that the new plan not cost any more than that requested for secretarial positions in the budget.
- 5. Regarding an appearance by the DCI before the Committee to discuss the new pay system, the staff stated they did not believe it would be necessary for the Director to make a separate appearance before the Committee on this issue since members already had the Director's testimony before the SSCI. Instead, the HPSCI staff suggested that the Director include within his NFIB presentation next year to the Committee a section on the proposed new personnel system.
